

TOP SECRET

DAILY STAFF MEETING

Tuesday, 7 August 1951

[] reported that General Gruenther had requested "all" CIA publications for General Eisenhower. At the present time Mr. Douglass is experiencing some difficulty in working out a method to transmit special intelligence, since this information cannot be sent by air. Mr. Douglass is working on this with General Bolling and will report the final outcome to the D/DCI and the DCI.

[] reported that he and [] had discussed the military personnel situation with Colonel Randall of Mrs. Rosenberg's office and it appears that the Secretary's office felt that the Services (Army, Navy and Air) should take the initiative of filling our military personnel requirements, while the Services felt that initiative in this matter was being taken by the Secretary's office.

Mr. [] noted that the DCI had sent a memorandum to [] stating that it was the CIA position that no legislation was needed concerning US cooperation with [] Atomic Energy matters. He also stated that a request had been received from G-2 concerning our censorship requirements from a National Censorship Organization which was to be organized "upon receipt of competent authority."
